Company Overview

Capital Arts has grown from a creative design studio into a fully integrated **signage solutions company**. We provide end-to-end services—design, engineering, fabrication, installation, and maintenance—for retail, corporate, hospitality, healthcare, and infrastructure projects across Cambodia.

With our in-house workshop, modern machinery, and trained installation teams, we deliver consistent quality, on-time execution, and long-term reliability. Our portfolio includes nationwide rollouts and landmark assignments such as **airport wayfinding** and **high-rise façade letters** for leading brands and institutions.

About Us

Founded in 2011, Capital Arts has grown from a small creative design studio into a **full-service signage manufacturer with nationwide delivery capacity**.

- Over **500 projects completed** across Cambodia.
- Dedicated **workshop facilities** equipped with CNC, Laser, UV printing, welding and finishing machinery.
- **1600 m² production space** and we are expanding more.
- **Multi-disciplinary teams** spanning design, engineering, fabrication, installation, and quality control.

Our promise is simple: **innovative design, precision engineering, quality craftsmanship, and reliable delivery**.

Vision

To be the leading signage company in Cambodia, recognized for setting new standards in quality, innovation, and brand communication.

Mission

- Provide world-class signage solutions through craftsmanship, creativity, and engineering discipline.
- Invest in people, technology, and process excellence to improve quality and speed.
- Build long-term partnerships based on trust, transparency, and performance.

Our Core Values

1. Quality

We deliver exceptional standards in every project and product.

2. Creativity

We craft fresh, original solutions that inspire and engage.

3. Integrity

We act with honesty and accountability in all our relationships.

4. Customer Focus

We put client needs at the center of every decision.

5. Teamwork

We achieve more by collaborating with respect and trust.

6. Innovation

We embrace change and pioneer new possibilities.

Our Services

Design & Consultancy

Our design and consultancy services form the foundation of every successful signage project. We combine **creative vision** with **engineering discipline** to ensure that every sign system is both visually compelling and functionally effective.

Wayfinding Strategies

- ◆ Development of clear, user-friendly wayfinding systems for airports, hospitals, shopping malls, universities, government complexes, and transport hubs.
- ◆ Message scheduling, sign family hierarchies, and location mapping tailored to large-scale, high-traffic environments.
- ◆ Integration of universal design principles for accessibility, ensuring compliance with international standards (ADA, ISO, local codes).

Corporate Identity & Branding Alignment

- ◆ Translation of brand guidelines into physical signage systems that strengthen corporate identity and customer experience.
- ◆ Custom design of pictograms, typography, and color schemes to maintain brand consistency across all applications.
- ◆ Adaptation of logos and brand marks into scalable formats for façade signs, interior navigation, and digital platforms.

Material & Finish Consultancy

- ◆ Advisory on suitable materials based on climate, durability, and budget considerations.
- ◆ Guidance on finishes and coatings (e.g., UV-resistant, anti-corrosion, anti-graffiti) for long-term performance in Cambodia's tropical conditions.
- ◆ Prototyping and mock-ups, enabling clients to see and test finishes, lighting, and structural stability before production.

Client-Centered Process

- ◆ Workshops and review sessions with client teams to align expectations
- ◆ Iterative design presentations with 2D, 3D, and photorealistic renderings.
- ◆ Clear documentation and approval stages to ensure design intent is preserved through fabrication and installation.

Our Services

Engineering & Fabrication

- ◆ Metals: Aluminum, Stainless Steel, Galvanized Steel — laser cut, welded, formed.
- ◆ Plastics: Acrylic and polycarbonate — lightboxes, 3D letters, thermoforming.
- ◆ Finishing: Painting, Powder Coat, Electroplated and polished Finishing.
- ◆ Lighting: Samsung LED modules, digital screens, Novastar control systems.
- ◆ Graphics: 3M films, UV printing, vinyl plotting.

Installation & Commissioning

- ◆ Nationwide teams for façade, rooftop, suspended, and floor-mounted signs.
- ◆ Certified work-at-height operations, heavy-equipment installation.
- ◆

After-Sales & Maintenance

- ◆ Standard 12–18 month warranty depending on project scope.
- ◆ Coverage: LEDs, power supplies, coatings, fixings.
- ◆ Service contracts for critical sites (airports, banks, hospitals).

Products Catalog

Our product portfolio reflects a commitment to quality, innovation, and long-term value. Designed for performance and reliability, each offering is developed with customer insight and rigorous testing to ensure lasting results. By combining advanced technology with user-friendly design, we provide versatile solutions that help organizations streamline operations, enhance brand presence, and stay ahead of market trends.

- ✓ UV Printing

Capabilities & Equipment

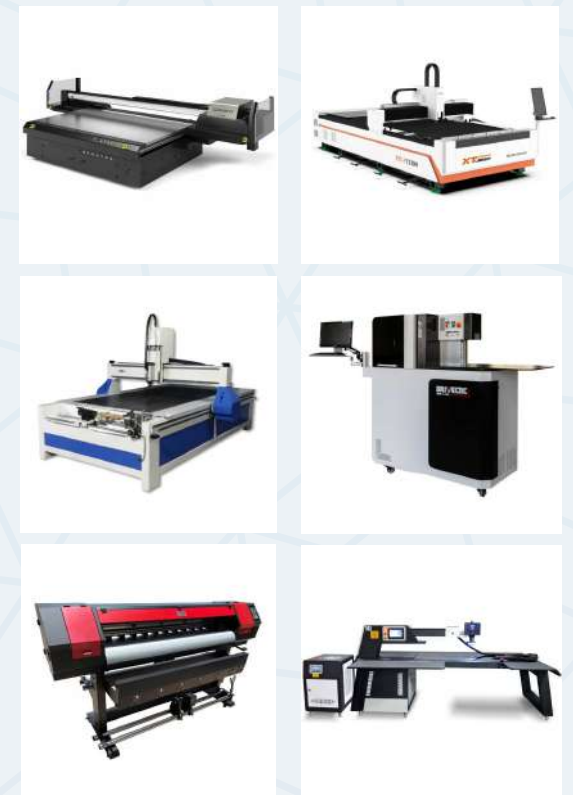

Workshop Area

1 600 m² - Dedicated spaces for Fabrication, Painting Facility, Assembly and Storage.

Equipment:

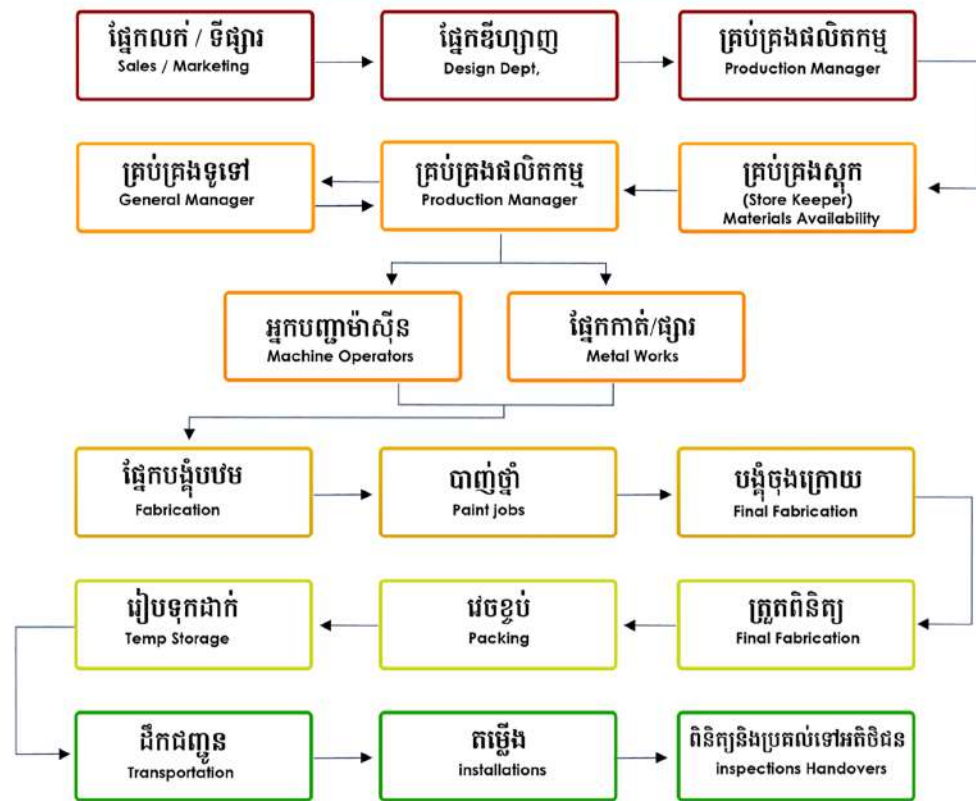

- ◆ **CNC Router** – 1325 Series, 2.2 kW spindle.
- ◆ **Fiber Laser Cutter** – 3000 W capacity, up to 8 mm stainless steel.
- ◆ **Hybrid Laser Cutter** – 300 W capacity, up to 30 mm non Metal.
- ◆ **Laser Cutter** - 100w _ capacity 1.2 x 2.4M
- ◆ **Laser Cutter** - 80w _ capacity 1.2 x 2.4M
- ◆ **Laser Welding Platform** _ 300w for 3D Stainless Steel Letters.
- ◆ **Automatic Letter Bending Machine** _ 150mm Height Aluminum/Stainless Steel.
- ◆ **UV Flatbed Printer** – 2.5 m × 1.3 m bed.
- ◆ **Spray Booth** – enclosed painting / drying environment.
- ◆ **Fiber Laser Welding Machine** - 1500w Capacity - Aluminum /Stainless Steel
- ◆ **MIG/TIG Welding Stations** – multiprocess units for Aluminum /Stainless Steel.
- ◆ **Hydraulic Vacuum Forming Machine** - 3 x 2M
- ◆ **Vinyl Plotter**
- ◆ **Acrylic Bending Machine**

Team Organization

work flow chart

Major Projects

- ♦ **New Phnom Penh International Airport (2024–2025)** – Wayfinding signage package including front-of-house and back-of-house systems.
- ♦ **Sathapana Tower (2025)** – 7 m tall logos and 4.5 m tall façade letters, engineered for long life in extreme heat, rain, and weather conditions, with precision installation.
- ♦ **Sathapana Bank HQ & Branches** – Full external and internal signage rollout.
- ♦ **UCB Bank HQ** – Building façade and internal wayfinding system.
- ♦ **Sihanoukville International Airport** – Terminal signage, Sea Side durability.
- ♦ **Independence Hotel** – Coastal-grade signage with premium finishes.
- ♦ **Preah Angdoug Hospital** – Healthcare signage package.
